Environmental Health Chair Leads Organizing Committee for Meeting

Shuk-mei Ho, PhD, chair of environmental health, was the organizing committee chair for the 18th annual Society for Basic Urological Research (SBUR) meeting, held Nov. 20–23 in Phoenix. The scientific theme of the meeting was "Epigenetics and Genitourinary Disorders."

The SBUR is a society of international scientists specializing in research on urologic cancers and the biology of the prostate, kidney and bladder. For more information, visit www.sbur.org.
