

ONLINE COURSE
Symposium on
Nanotechnology - Health and Safety Issues
Recorded on May 10, 2011
Kettering Laboratory; Kehoe Auditorium

Department of Environmental Health, UC College of Medicine

Sponsored by the UC NIOSH Education and Research Center (ERC), and the Cincinnati student chapters for the American Association for Aerosol Research and American Industrial Hygiene Association

Speakers include:

Dr. Andrew D. Maynard, Professor, Director, Risk Science Center, University of Michigan School of Public Health: The Art and Science of Working Safely with Sophisticated Materials.

Dr. Kristen Kulinowski, Director, International Council of Nanotechnology, Rice University: Training Workers to Safely Handle Nanomaterials.

Dr. Charles Geraci, Coordinator, Nanotechnology Research Center, NIOSH: Risk Management of Nanomaterials.

Dr. Vesselin Shanov, Professor, Director, Nanoworld Laboratory, University of Cincinnati: Synthesis and Application of Carbon Nanotube Materials.

Dr. Jagjit Yadav, Professor, University of Cincinnati: Toxicology of Nanomaterials.

1 ABIH CM point is available for this symposium to participants who complete the entire program online.

Registration. No registration fee! Please click the following link to register:
